

① [ 1 ] Fold it back into a triangle and make two creases on the diagonal.

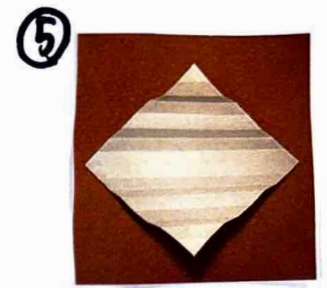

② [ 2 ] Fold the top and bottom corners to the horizontal center line.

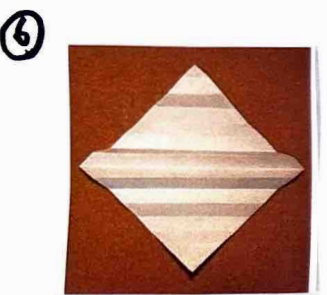

③ [ 3 ] Fold the top and bottom to the horizontal center line.

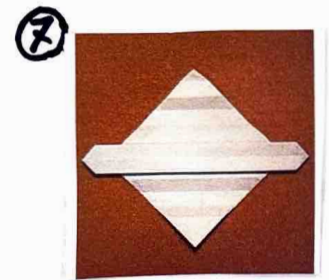

④ Same process as ③

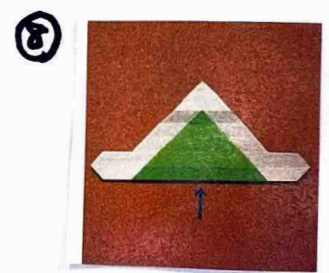

⑤ When all are opened, there are 7 creases on the top and bottom.

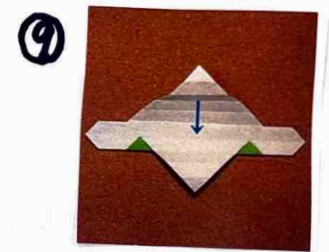

⑥ Fold the first upper and lower folds into mountain folds.

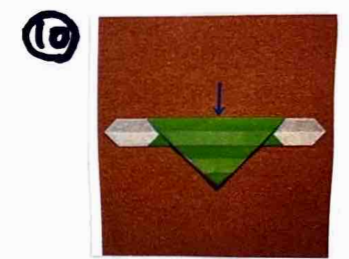

⑦ Fold each of the valley folds of the upper and lower second folds.

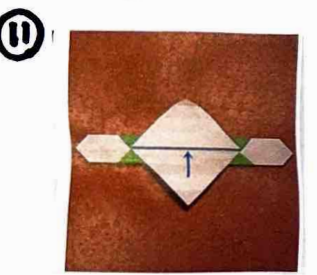

⑧ Fold it up.

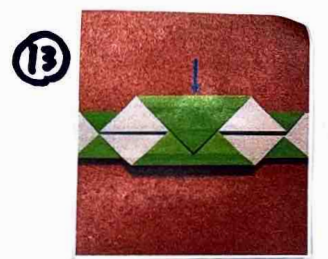

⑨ Fold down the folded-up bottom part.

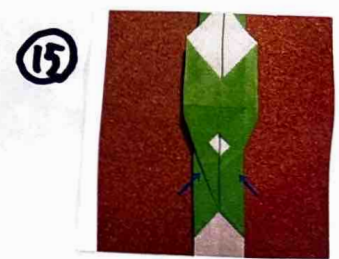

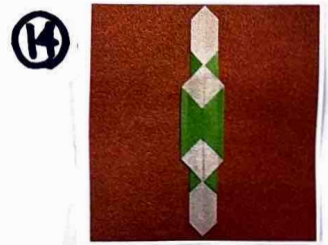

⑩ Fold the upper triangular part down so that the corners align.

⑪ Open the upper layer to form a square.

⑬ [ 13 ] Rotate 90 degrees to the left to change the direction.

⑮ Fold the arrowed parts toward the center line.

16

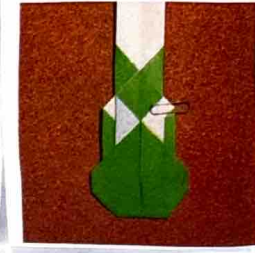

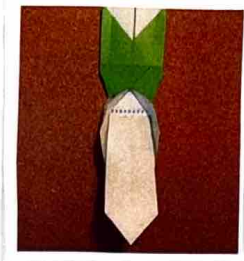

17

open the lower side to the left and right.  
and fold the dotted line to open it.

18

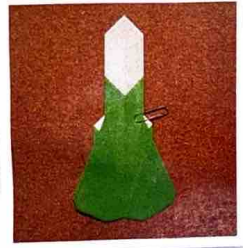

Open the lower side once and fold the lower corner to the dotted line position.

19

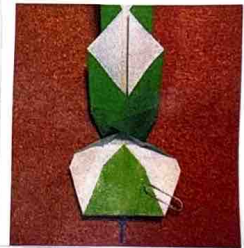

20

Open the bellows crease on the right side and fold it as shown in the photo.

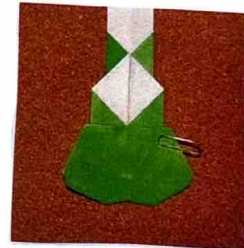

Open the crease on the left side in the same way and fold it.

21

Again, fold the bottom corner to the top corner.

22

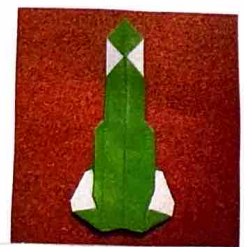

Fold it again.

23

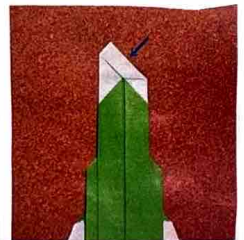

Fold the upper left and right corners of  
the folded part slightly.

24

Turn it over.

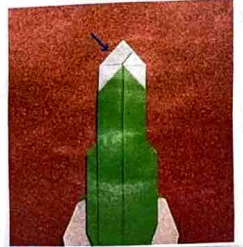

25

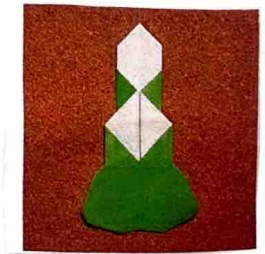

Fold the upper right side of the diamond part along the lower left side.

Fold the upper left corner into a valley fold so that it becomes a triangle.

26

Turn it over and the Kadomatsu body is complete.

DONE 😊
